

Please do NOT change Indiana's phone call privacy act. Since putting my name on the list, my phone calls have reduced from at least one a day to none. As a working single parent of two preschoolers, my time in the evenings is extremely valuable to be used wisely, to the benefit of my children. Being interrupted during our dinner, bath, and bedtime was not only disruptive but truly infringed on my rights to have private quality time with my children in our own home. Please, please do not make any changes.
Thank you, Amanda Kaiser
